

JAMIESON EQUIPMENT COMPANY

Ted Jamieson founded Jamieson Equipment Company in 1982 and immediately began building relationships with the best manufacturers and knocking on doors all over the Southeast United States. Within a year, Ted expanded into an office in Duluth, Georgia and, over the years, continued to expand the office, warehouse, and distribution

facility many times in order to keep up with growing customer demands, always stocking an abundance of parts on his shelves ready for quick delivery.

In 1987, Ted's son, Michael, officially joined Jamieson Equipment Company after graduating from West Georgia College and together they have built a family business with world-class expertise. Now headquartered in Buford, Georgia, Jamieson Equipment Company continues to be the **Complete Solution** to their customers all over the world, offering more than 10,000 products to more than 50 industries as well as offering a number of services from training, troubleshooting, and repairs to assembly, installations, and project management.

If you handle dry bulk materials whether it be extracting Earth's resources or processing those resources and manufacturing products, **Jamieson Equipment Company is the Complete Solution!**
